

LANGUAGE IMMERSION

TRAVEL TO FRANCE IN 2017!

About Language Immersion

Want to hone in on your language skills as you live with a family in France, soaking up the local culture?

Antipodeans Language Immersion program is for high-school students who want to study and live abroad in France for 5-weeks! It's the adventure of a lifetime you won't want to miss.

How is it different to your usual exchange program?

- **Host families matched to you!** Your host family will have a host brother or sister the same age as you - and with similar interests. You will go to school with them!
- **Never feel isolated or alone.** Home-stay with a local family but live within one city where other Australian Antipodeans students are also being hosted.
- **Australian chaperone accompanied.** Dedicated Antipodeans chaperones, language teachers from Australia, accompany and look after you for the duration of the program, 24-hours a day! They live in the same city as you.
- **Travel & weekend sightseeing excursions.** Join the other Antipodeans Australian students based in your town on excursions to see major sites and tourist spots. Excursions are led by your Chaperone.
- **Same in-country partners.** Our partners have been working with us for 10+ years and understand the Australian student and how to match them with families that are suited and welcoming.

When and what's included?

Language Immersions depart in early December every year. Exact timings and prices will be discussed at the info night. **Costs include:** return airfares, supervision from Australian chaperone, host family accommodation, meals, transfers, introduction program in Paris, excursions and activities, language lessons, 24 hour back up, training and preparation.
