MySci

3 DAY
SCIENCE EVENT
FOR SECONDARY
STUDENTS

monash.edu/mysci

GROUP
OF EIGHT
AUSTRALIA

MYSci is a three-day science program designed specifically for students in Years 11 and 12 in 2018 and includes workshops from our 5 Schools of Science; Biology, Chemistry, Physics & Astronomy, Mathematics and Earth, Atmosphere & the Environment.

The workshops will be run in our teaching laboratories and outdoor science classrooms. Students will also have direct access to Monash University's research scientists who will provide an insight into their disciplines and provide students with potential career pathway information.
