

The Crow Family

The Parents' Association were thrilled that Maude Davey donated her time for the school earlier this year to speak at our annual International Women's Day event.

We would love for everyone to support her upcoming play featuring her family, including MGC's own Alice Pidd-Davey (year 12).

A woman lives in the middle of a city, next to a tree that smells of lemons. In this tree lives a family of crows, but their home is threatened by developers looking to build inner city apartments where factories and shops used to be.

One day, the child of the crows falls from the nest. As night falls, the neighbourhood cats move in for the kill. The woman intervenes and her encounter with the crows and their child transforms her life and ultimately transforms her.

22 July - 4 August, tickets from \$25
