

Apprentice marine mechanic / technician required for a busy waterfront marine centre.

This position is in conjunction with the Tafe course : Certificate III in Marine Mechanical Technology (3 year course held at Ultimo Tafe - Sydney Institute, NSW)

We are a Mercury/Mercruiser dealer and offer training and guidance on working with various marine engines, outboards, stern-drives, inboards and generators of small to moderate sized pleasure craft, yachts and leisure boats.

We repair, service and maintain marine engines on site and within our workshop.

The position is full time and some Saturday work may be required during busy periods.

Award wages as per **MA000010** award code.

A school leaver is preferred, having completed School Certificate or Higher School Certificate.

Applicant must be reliable, enthusiastic and capable of carrying out tasks. Car and boat licence would be beneficial.

This is a 4 year apprenticeship and a great opportunity for a career in the boating industry.
