EXPLORING THE WORLD OF ROBOTICS!

e2 Young Engineers robotics programs with LEGO® Mindstorms® EV3 and WeDo software are designed to take students from introductory to advanced robotics in a fun and collaborative learning environment. It gives them the inspiration, tools and knowledge to explore computer programming.

Design, build, program and test robots that can complete tasks, respond to environmental changes and more. This encourages the comprehensive learning of science, technology, software engineering and maths. Children will be assigned to Mindstorms® EV3 or WeDo based on age and skill.

Where: Highvale Primary School
When: Every Friday, 3:45 – 5:00 pm
Suitable for grades 3 to 6
Cost: $180.00
Enrol online, call or email for registrations
