GREAT FUN

Welcome to another camp Australia news letter

Over the course of a few weeks we have been working on a poster about Australia showing what the children feel is special about Australia, this active is being done in conjunction with the camp Australia foundations, the posters will be compiled with those made by other afterschool cares from all over the country and then sent to Nepal to benefit the children who suffered from the major earth quake in 2015, this program allows the children to understand their place with the world and also in their own way give back to their larger community.

The children have also been very enthusiastic to start our Christmas craft program, with one of our first projects being a Christmas tree being made from recycled magazines, through this type of activity the children have been able to develop their sense of Christmas spirit but also care for our environment but using recycled goods to create something amazing. For any questions or inquiries please feel free to ask one of our friendly staff.

The beginning of our amazing Christmas craft program
