GREAT FUN

Hello and welcome to another Camp Australia news for term 2,

Over the past two weeks we have started our Disability Awareness Program, this awareness raising program aims help develop empathy and understanding for children with additional needs. Children will also learn about the importance of communication skills and explore other ways to communicate.

The children have had an amazing time with our Camp Australia cook books over the last two weeks and have enjoyed not only selecting and making snacks but most especially eating them. By allowing the children to help in the preparation of snack we are allowing the children to understand what and how to make healthy snack decisions as well as discussing sustainability in how we dispose of our rubbish and left overs.

Camp Australia offers holiday programs at several locations activities, locations and bookings can be found at **[campastralia.com.au](http://campastralia.com.au)** for the upcoming holidays, please see one of our staff for any assistants in this matter.

Our team work to get to know both the children and the families to provide your children with the best care possible to this end we welcome any input from families regarding your children and our program.
