

Manningham SES is now in recruitment mode for 2019

What do we do? The Victorian State Emergency Service is the control agency for floods, storms, tsunamis and earthquakes. We also do everything from missing person searches to rescues and community education.

We train every Monday night and are particularly interested in hearing from people who may have some availability during regular business hours.

Sounds like you? An information night for prospective volunteers will be held at 7:30pm on Wednesday 14th November.

To register your interest or for more information, please do not hesitate to **email Jordan** at jordan.ignatiadis@members.ses.vic.gov.au or call on 0418 599 013.

-Orange Onesies and a great environment are included!
