

What's in a Name?

There is something exciting happening at Infant Jesus - the old Computer Lab is being transformed into a brand new learning space for all students to use.

In this learning space students will be **problem solving, collaborating, creating** and **tinkering** and of course, **critically thinking**.

This new space in our school needs a name and we need your help to decide.

- It's time to start namestorming! -

The room not only needs a name but it also needs a motto. The motto should reinforce the key elements of our room. So it is really important to think of a motto that communicates that.

Each class can put forward their TOP 3 suggestions.

Voting will commence on Monday of next week.

Remember: Be creative and think outside of the box!
