

Plastic Free July

A River's Journey

If you love your local beaches this session is for you!

Let us take you on an interactive journey through a story that follows a river from the hills to the sea. As it flows we will add different pollutants and learn why keeping our waterways healthy is so important.

Afterwards join us in a litter pick-up around the centre to see the types of litter that can so easily end up in our local waterways.

Wednesday 5 July
4-5pm

Suitable for 5-8 years | No bookings required
