

Kitchen Chef of the day Homework

For the majority of the time I did enjoy being a leader. At the beginning I was ~~so~~ slightly nervous as I had a lot of pressure.

I do think I understand the responsibilities of a leader slightly better. I did do the activity last year since after the year sixes all had a go, Anita and I volunteered to have a go.

I don't mind giving instructions. I don't enjoy having a lot of power but I think I did quite well. I liked the organisation though, because my normal group rarely ever gets to have a volunteer help out.

I think I did well not getting too stressed and making sure that everyone was happy and had a job to do. I had worked hard before the other people arrived to make sure I was organized and that everyone had a job that they can do, since they all are good at different things.

I would change my leadership behavior a bit. I got really nervous at the beginning and really didn't look forward to it. If I hadn't been so nervous I think I could have really enjoyed it.

My group worked really well and we got it done without much difficulty. They all worked hard and helped me to be able to get our dish at the table.

Our dish was Pasta with herb sauce. It was better than pasta! It was delicious. I really would make it for myself in the future.

3 of our 5 group members prepared the pasta while the other two made the fresh herb sauce. Then 2 more cooked the pasta, yet another 2 made the pasta dough and 1 more stored plating. Then we all helped clean up.

My Group: Nell, Alchemy, Hanson, Tonlea and Alessandro
